FACT SHEET

I. PURPOSE & ELIGIBILITY

The ASSP Regional SPY award is an honor acknowledging the dedication and outstanding contributions of a member to a specific Region. To be eligible nominees must:

1. Be a Professional Member, Member or International Member in good standing of their Region, Chapter and the Society.
2. Not have received this award within the past five (5) years.
3. Be engaged in full-time employment in the profession of protecting people, property and the environment.

Nominees are not eligible if they are currently serving as a member of the Board of Directors or the Regional Awards Committee, or have been elected an ASSP fellow.

II. JUDGING CRITERIA

Only the nominee’s past three (3) years of activities will be considered.

1. Demonstrated technical expertise in the broad field of safety and a thorough knowledge of the operational aspects of his/her nominee’s safety employment.
2. Demonstrated outstanding contributions to the Society, Council, Region, or Membership Community activities, including committee or task force chair, officer, services to members, lecturer at seminars, etc.
3. Professional contributions to advance the Safety Profession, such as fostering professional development, public/community services, instructor at educational institutions, involvement in codes and legislation, articles written, work with allied groups, etc.
4. Awards and innovations, including citations, honors, plaques; or new procedures or systems developed.
5. Leadership in establishment, maintenance, and improvement of technical or Society programs in the organization nominee serves or elsewhere.
6. Other personal achievements related to safety and health.
7. Endorsements by superiors and verifications by associates, in the form of letters on appropriate stationery of the employer, Membership Community, or Council.
III. AWARD AND PRESENTATION

The recipient receives an engraved Silver statue (if ordered by the Region) for presentation at a local meeting or the Region’s Operation Committee meeting, and a complimentary registration for the Society Professional Development Conference (PDC). Recipient is also recognized at the annual House of Delegates/Membership meeting Chapter Recognition Luncheon held in conjunction with the Society's annual (PDC). Award order form is located on ASSP website in Leadership Resources or contact chapterservices@asse.org.

NOMINATING PROCEDURES

Petitions must be submitted in writing by a Professional Member, Member or International Member in good standing of their Region and Chapter to the current Regional SPY Committee no later than February 1 to be considered that same year. Individual members, Chapters and Regions may submit a nomination.

The nominee’s entire submission should include the following items:

- The completed nomination form and letter of endorsement from the nominating member or Chapter, These two items should not exceed 3 pages.
- A letter of endorsement from the nominee's immediate employment supervisor. These parts should be one page or less.
- A one to three-page resume of the nominee's professional background. Upon selection as Region SPY, a recent color, head and shoulder’s photo (used for public relations purposes only) will be requested.
- A nine (9) page (maximum), double spaced petition that lists in the order obtained the nominees achievements. Word processing guidelines for the petition include: 8 ½ x 11 paper size with type on one side only.
- Submit the petition electronically as a .pdf file or mail five (5) copies of the entire petition to the Chairman of the Regional SPY Committee.

NOTE: Petition & attachments (letters, forms, table of contents, etc.) should not exceed 16 pages.
AWARD FOR REGIONAL SAFETY PROFESSIONAL OF THE YEAR
PETITION INFORMATION & GUIDELINES

This document provides the categories in which petitions will be evaluated. It is designed to assist and provide guidelines for preparation of a petition. It contains examples of the kinds of safety and Society activity that the Regional SPY Committee considers favorably when judging a petition.

Candidates are judged by the scope, depth, quality and impact of their efforts over the past three years, in the safety profession, ASSP and the community. The nine (9) -page (maximum) double-spaced petition statement should be carefully prepared so that it is both comprehensive and accurate.

The Regional SPY Committee must rely on the sponsoring Chapters and Regions to provide a petition that is clear, concise, accurate, and detailed. The Committee must judge each candidate on the basis of the petition only. The committee realizes that the petition may be a difficult endeavor. Accordingly we provide all Chapters and Regions with this document to help demonstrate some of the kinds of information that is considered favorably.

Note: Submitted material must be based on past three year’s activities only.

THE PETITION WILL BE EVALUATED ON EACH OF THE FOLLOWING CATEGORIES (EACH CATEGORY SHOULD BE ADDRESSED IN THE ORDER PRESENTED BELOW):

I. DEMONSTRATED KNOWLEDGE AND EXPERTISE

A. Technical Aspect

This area should detail how the candidate has demonstrated technical expertise in the employment setting. It should be specific, detailing actual activity by the candidate. The submitted job descriptions may indicate a candidate’s duties but not ability to perform them or to what degree they have solved a problem or have been successful. Without this detailed information the judges will be unable to award points.

Demonstrated technical expertise should indicate a comprehensive definition of job function including the number of locations/clients and employees for which the candidate has safety responsibility. Speaking at local, regional or national seminars, program development using state-of-the-art concepts, recognition of expertise by serving on committees (ANSI, NFPA, etc.) or governmental advisory boards all reflect activities which show unique and superior achievement.
Examples:

- The candidate has developed procedures for digging over or around buried loaded pipelines and/or energized electric cables that have been used on 17 projects without incident.

- The candidate has developed a new accident data collection and reporting system that provided management with a 38% more accurate picture of the accident/loss experience.

- The candidate has developed a new accident investigation technique, and trained supervisors in ways to implement it effectively. This has resulted in an additional 14% accident reduction since its introduction.

Consultant candidates should use representative assignments and projects in place of jobs and job descriptions. Specifics of projects and assignments should include number of people/workers affected by project, description of problem or issue being addressed, techniques used to resolve or deliver the desired result, and a description of the outcome or results of the completed work/project. Note: if applicable, this should include identification and process of identification of the problem or issue. Candidate should not include, take credit for, nor describe work and results of subcontractors.

- Candidate identified the need for redesign and application of energy control systems for robot servicing as well as robot training; developed a system for both and a corresponding training and reference guide. The client company liked the results so well that they introduced the system to their other five plants with similar robots.

B. Operational Aspect

This area deals with the candidate’s ability to work within a company structure, provide a safe working environment and develop effective safety programs. It includes the effects that safety programs have on the operational aspect of the industry. To describe thorough knowledge of operational aspects, indicate the complexity, number of locations/clients and people involved as well as the results of program implementation. Detail if the program is designed based on worker needs, how successful the program is and whether or not it is ongoing. Be sure to demonstrate an ability to work well with all levels of the workforce.

Example:

- The candidate was responsible for the development of a nondestructive testing program on burner tubes and fire tubes in heat-treaters and gas plan furnaces. Fires and/or explosions were completely eliminated for the 18-month period following implementation.

Consultant candidates should describe their effectiveness in working with clients and various client representatives and at multiple locations/clients. If applicable, describe the complexity of the problem/project; the impact of project results on the client’s operations; how the consultant assisted the client in implementing processes, systems, and practices and/or making changes.
II. ASSP ACTIVITIES

Describe the candidate’s involvement with ASSP at the Society, regional or local level. Describe what contributions were made during this time of service.

A. Society

Society activity includes service on a Society committee or as an elected VP. Note the candidate’s accomplishments and the effect he/she made on ASSP.

Example:

- Society Technical and Professional Recognition Committee from the years ___ to ____.
- Conceived, solicited a sponsor for, and established the Safety Professional of the Year Award. Note - It is not necessary to be a Society officer to win this award.

B. Region

Regional activities can include service as a RVP, Area Director, an Assistant RVP or working on a project for the Region. Activities should be accompanied by a measurement of the outcome and personal growth.

Example:

- Region Vice President

  The candidate expanded the Regional Operating Committee by adding three assistant vice presidents to better aid the Region and its Chapters. The assistant vice presidents were for Awards and Honors, Public Relations, and Education/Professional Development. As a result of these additions, there was a 50% increase in the number of petitions for Regional SPY, the Region received 25% more media placements and the Regional PDC saw a 40% increase in attendance.

C. Membership Community

Community activities include service as an officer, committee chair, nominated position, or project/seminar director. Describe the number of years, accomplishments, and professional growth as a result of the activity.

Example:

- Held all offices in Chapter from __________ to __________
- Candidate coordinated and developed Chapter technical conference on robotics.
- Candidate developed and coordinated study groups for the CSP, ASP exams with % of the potential candidates achieving 98% passing grades.
- As membership chairman, candidate led campaign that increased Chapter membership by 25%.
• Held all offices in Practice Specialty from ____ to ____.
• Candidate served as the 2014-16 newsletter editor and published four quarterly issues with at least three technical articles each.
• Candidate organized new Practice Specialty internship program. Fifty students matched with government agencies and companies.

III. PROFESSIONAL CONTRIBUTIONS

A. Authorship

List publishing activities during the past five years dealing with safety and health including company publications, letters to the editor of a safety magazine, major articles, technical documents, research projects and books. Describe the impact on the safety and health profession.

Example:

• March 2000- Professional Safety, article on cost accounting for accidents.

B. Public/Community Services

Describe the candidate's involvement in the community and contributions that have been made during the time of service. Public/community service includes serving on community or state public service boards or advisory committees. It also means significant accomplishments for city, county, state, nation or industrial efforts with recognition.

Example:

• Member, Advisory Board University School of Safety Technology.

Advises university on course and activities in safety and fire protection, five new courses developed during this period, helps establish the university's accreditation with the BCSP and ASSP. Also include service to the National Safety Council, municipal committee, Chamber of Commerce, service on state or Governor's commission.

C. Academia

Related to degrees like high school diploma, associate (two-year), baccalaureate, master’s or Ph.D. degrees at the time of nomination. Professional designations include P.E. and CSP. Academic work at local colleges/universities could be adjunct faculty, instructor, and curriculum advisor and accreditation activities. Be Specific. Per se involvement is not enough.
D. **Codes, Standards, Legislation**

Membership on standards, codes or legislative committees at the local, state and Society level qualifies for this area. Should show any significant impact by the candidate on the safety profession on standards, legislation, or codes.

Example:

- Member of National Advisory Committee OSHA, NIOSH Advisory Committee, ANSI Standards Committee, NFPA Committee. Describe the candidate's involvement and contribution to these groups. Again, be specific, membership alone is minimal.

IV. **AWARDS/INNOVATIONS**

A. **Honors – Awards**

Describe awards and honors bestowed upon the candidate, explain the nature and purpose of the award or honor and the reason the candidate got it.

Note here, local awards (Membership Community) or letters of appreciation and regional or Society awards in safety or business.

Example:

- ASSP Volunteer Service Award or Regional or Chapter Safety Professional of the Year - NSC Distinguished Service to Safety, ASSP Foundation Award or Honorable Mention.

D. **Innovations - Inventions – Improvements**

Describe any innovations, inventions or improvements designed and/or patented by the candidate. Describe its nature and the benefits that were derived. This area covers new safety and health technology applied and recognition or accomplishments through unique, first-time, state-of-the-art technology or procedures having significant impact on the profession.

Example:

- Candidate was awarded patent number 12345, in January 2001 for invention of an automatic fault free analyzer. This device reduces the time required to perform a study by one order of magnitude.

- Candidate has been cited by for developing one of the most complete hydrogen sulfide programs for production/operations within the petroleum industry.
V. LEADERSHIP/MANAGEMENT

A. Leadership

Leadership abilities include demonstrating a history of promotions to a high level of responsibility based on individual, team and management level leadership skills. Show some specific or unique skills in this area.

B. Program Development

Program development includes the ability to define a program need and describe a well thought-out plan of action plus methods of implementation and evaluation showing any positive impact or results.

Consultants should describe specific systems/programs developed for client(s), how the need for the program was determined with/for the client, if the results were evaluated, how this was done, and a description of the overall results.

W. Management/Motivation

Describe the candidate's ability to motivate others in safety and health programs as well as Society and community programs. This motivational skill is shown by significant goal achievement and by promotions, results, areas of responsibilities and accomplishments.

Example:

- As Chair of ____ Committee, candidate developed two new programs to meet Society needs. The Board of Directors following candidate presentation approved these programs. Candidate easily recruited the necessary 12 members to run these two programs that have had positive results and the attention of the Board. For consultants, this factor can be demonstrated by letters from clients that describe the impact on them and their company.

VI. OTHER ACCOMPLISHMENTS

This area includes participation in any safety activities not indicated in any other criteria listed above. These activities should also include leadership and impact of activity described.

VII. ENDORSEMENTS

Provide endorsements from the candidate’s employer (must be candidate’s immediate superior as verified by employer) and from those in the candidate's Region if possible. For consultants, this factor can be a major or long-term recipient of candidate’s services.

Provide recommendation from candidate’s Chapter. The quality and scope of any endorsements should be exceptional. Letters should be specific, safety-related and describe the relationship between the two individuals. A few excellent letters are far superior to many general "Atta Boy" letters.
REGIONAL SAFETY PROFESSIONAL OF THE YEAR

NOMINATION FORM

(please print or type)

(To be filled out by individual or Chapter submitting the name of a nominee for this award)

CANDIDATE'S NAME__________________________________________________________

TITLE_______________________________________________________________________

COMPANY/ORGANIZATION______________________________________________________

ADDRESS_____________________________________________________________________

CITY/STATE/ZIP______________________________________________________________

PHONE ( ) __________________ EMAIL_________________________________________

Briefly describe nominee's current or recent ASSP activities:

____________________________________________________________________________

____________________________________________________________________________

(As the sponsoring individual or Chapter or Region, I/We have reviewed the petition and believe all statements to be accurate, and a faithful reflection of the nominee's safety activities in the Society, for an employer and in the community).

SPONSORING INDIVIDUAL or CHAPTER. ______________________

(I/We the Nominee have reviewed the petition and believe all statements to be accurate, and a faithful reflection of the nominee's safety activities in the Society, for an employer and in the community)

SIGNATURE OF NOMINEE____________________________________________________

IF A SPONSOR IS A CHAPTER, INDICATE SPONSOR REPRESENTATIVES

NAME_________________________________________ TITLE________________________

ADDRESS____________________________________________________________________

CITY/STATE/ZIP________________________________________________________________

PHONE ( ) __________________________________________________________________

NOTE: On no more than 9 (maximum) double-spaced typewritten pages, describe the nominee's qualifications for this award according to the criteria on the informational flyer. Both this form and the statement, together with the superior's endorsement form and statement, position description, the nominee's one to three-page resume, and a color photo, must be submitted at the same time. Submit the petition electronically as a .pdf file. Five copies of the entire application (excluding the photo) must be sent in. Applications not meeting these requirements will be evaluated accordingly.
