8:30-9:00am	Coffee with Training and Communications Practice Specialty
Period 1 9:00-10:00am	The Kina Hart Story: It's Your Safety, Don't Give It Away <i>Kina Hart is proof that failure to enforce lockout procedures and adequately train your employees, and ignoring your gut instincts can have a devastating impact. Her lifelong mission is to make sure that what happened to her one sunny summer day never happens to you or anyone you know.</i> Speaker: Kina Hart
Period 2 10:15-11:15am	Secrets of a Storyteller: Creating and Presenting Compelling Stories <i>Many say they'd love to utilize the power of storytelling in their safety training, but they're just not "good at it". This session will show you how to take an average "case study" and craft it into a compelling story that can bring your point to life in the mind of your listeners. You'll also learn some secrets about dealing with "stage fright" and the jitters that come from public speaking, and we'll even throw in a few "9-1-1" tips for when you suffer a temporary brain freeze while you're up in front of everybody.</i> <i>Supported by: Consultants Training & Communications</i> Speaker: Joe Korpi, CSP
Period 3 11:30am-12:30pm	Safety in the Eyes of Gen Y and Z <i>Explore views and perceptions of safety through the lens of Gen Y and Z workers. Gain an understanding of their expectations so you can optimize performance and explore how to innovate safety methods through the technology these workers already use.</i> <i>Supported by: Women in Safety Excellence (WISE) and Emerging Professionals in OSH</i> Speakers: Melissa Schmaltz, CSP and Regan Witt
12:30-1:30pm	Expo and lunch break
Period 4 1:30-2:30pm	Developing an Effective and Consistent OSH Training Program <i>Supported</i> <i>As an occupational safety and health professional, you develop and manage training that may not follow a specific methodology. Using ANSI/ASSP Z490.1 -2016, Criteria for Accepted Practices in Safety, Health and Environmental Training, you can manage, develop and deliver consistent and effective safety training. This session will focus on how to maximize the impact and sustainability of training and converting the content of training sessions into performance and practice.</i> <i>Supported By: Standards Development Committee Oil, Gas, Mining and Mineral Resources</i> Speaker: Wayne Vanderhoof, CSP
Period 5 2:45-3:45pm	Using Best Practices to Make Your Training More Relevant and Sustainable <i>Virtually every organization conducts safety training of one sort or another – whether it be traditional instructor-led classroom training; virtual training; app-based training; on-the-job training; or another method. What does not always happen during those training sessions is a solid transfer of information, or providing the time to successfully master the new/enhanced skills in order to make an appreciable organizational impact.</i> Speaker: Chris Ross, CSP, OHST, CPLP
3:45-4:30pm	Expo and Training and Communications Practice Specialty Networking Reception

Thursday, March 11, 2021	
8:30-9:00am	Coffee with Training and Communications Practice Specialty
Period 6 9:00-10:00am	Attention, Retention and Transfer - Keys to Great Safety Training <i>Safety training that is quickly forgotten and not used on the job can result in lost productivity and accidents and wasted time and money. Safety training can be designed, delivered and reinforced in a way that makes it more likely that important safety information is remembered and used when needed, which is the ultimate goal of a safety training program.</i> Speaker: Linda Tapp, CSP, ALCM
Period 7 10:15-11:15am	Using BIM, 3D and VR Technology as Construction Safety Training <i>Gain insight and knowledge on how your organization can use building information modeling (BIM), 3D and virtual reality (VR) technology to improve construction safety training.</i> <i>Supported by: Construction</i> Speakers: Neil Webster, CSP, OHST and David Korman, CSP
Period 8 11:30am-12:30pm	Gaining Their Attention-Effective Presentations Can Enhance Your Career <i>Have you ever faced the challenge of getting your point across? While considered a "soft" skill, effective communication is essential for success. Participants will have an opportunity to enhance their communication skills through understanding and application of a number of helpful tips. Individual exercises presented throughout the session will focus on sharpening communication efforts.</i> Speaker: Skipper Kendrick, CSP, FASSP
12:30 –1:30pm	Expo and lunch break
Period 9 1:30-2:30pm	Safety Made to Stick <i>Why can everyone remember an urban legend or a specific story, but immediately forget information when they walk out of a safety meeting? Learn principles to ensure successful safety messages and communication so you can ensure that the information is understood, remembered and changes something.</i> Speaker: Eldeen Pozniak, CRSP, CMIOSH, CHSC
Period 10 2:45-3:45pm	Classroom to Virtual Room - Making the Transition <i>Organizations have been thinking about virtual safety training for a little while now, and the present crisis has brought the timeline forward for many of them. Safety professionals need to think about how they will continue to provide the training they deliver.</i> <i>This presentation will examine the four basic options for taking your training online, and the pros and cons of each. We will also highlight the pitfalls that people fall into during training transitions and provide tips on how to avoid them.</i> Speaker: Marilyn Hubner, Ph.D.
3:45-4:00pm	Expo
