

AMERICAN SOCIETY OF
SAFETY PROFESSIONALS

A Safe Investment

Advance Your Safety Team With ASSP

Who We Are

For more than 100 years, ASSP has been at the forefront of helping environmental, health and safety (EHS) professionals protect people, property and the environment.

ASSP is a global association for environmental, health and safety professionals.

Our Mission

We are the community that protects people, property and the environment

Our mission reflects our role as the guardians of workplace safety. Our goal is that every worker returns home safe and healthy at the end of each day.

Member Community

Build connections and strengthen the future of the EHS profession

Our Community

ASSP is where environmental, health and safety professionals find connection and community:

- **Over 35,000 members**
- **135+ chapters** across nine U.S. and global regions
- **All industries and diverse voices** across age, gender, race and ethnicity
- **Access to 22 member communities**, which include practice specialty and common interest groups – *now included with membership*
- **Exclusive online community**

Networking

Community and Networking Opportunities

- **Meet local EHS professionals** through monthly chapter meetings
- **Practice specialties** offer the unique opportunity to network among EHS professionals in your industry
- **Common interest groups** represent different groups across age, gender, race and ethnicity to support diversity in the EHS profession
- Our **exclusive online member community** connects you with EHS professionals and valuable resources to grow and engage worldwide

Professional Development

Access tools and resources that meet today's needs and keep up with change

Trusted Advisor

Help EHS professionals, workers, employers and policy leaders manage changing risks

Standards

ASSP is a leader in the evolution of voluntary occupational safety and health standards that reflect recognized best practices, both in the U. S. and internationally

- As Secretariat for multiple projects, we organize the standards development committees
- We serve as the administrator of the U.S. technical advisory groups for ISO 45001 and ISO 31000
- Our standards-based education offers implementation guidance from standards committee members who are experts in their fields

Members Save on Standards

Standards Topics

ANSI/ASSP Standards and Technical Reports promote recognized best practices that prevent worker injuries, illnesses and fatalities. Our portfolio includes:

- Active Shooter Preparedness (Z590.5)
- Aerial Work Platforms (A92)
- Construction & Demolition Operations (A10)
- Confined Spaces (Z117.1)
- Fall Protection & Fall Restraint (Z359)
- Fleet Motor Vehicles (Z15)
- Hydrogen Sulfide Training (Z390.1)
- LOTO and Alternative Methods (Z244.1)
- Machine Guarding (B11)
- Personal Protective Equipment for Women (Z590.6)
- Risk Management & Risk Assessment (ISO 31000, Z310)
- OSH Management (Z10, ISO 45001)
- OSH Training (Z490)
- Prevention Through Design (Z590.3)
- Safety & Health Metrics (Z16)
- Temporary Workers (Z590.9)
- Walking/Working Surfaces (A1264)

Advocacy

ASSP strives to uphold and elevate the value of the safety profession through innovation, thought leadership, and objective, data-driven, solutions-based safety and health practices

- Timely updates on the latest EHS regulatory news, trends and policy developments at the federal level
- State legislative and regulatory activity reports to keep members informed and prepared
- Access to position statements, policy briefs and action alerts to support informed engagement
- Opportunities to increase impact and get involved through the Governmental Affairs Committee and related advocacy initiatives

ASSP And You

Join ASSP to receive exclusive and discounted opportunities that will bring value to you and your organization

What ASSP Can Do For You And Your Organization

- Drive business performance through knowledge
